

PUBLIC INPUT FORM

The City marketed the former Timeless Timber Site (2200 Lake Shore Dr E) to attract development which would diversity our existing business and housing mix. This site is a prime piece of City-owned property located along a regional commercial corridor located, as well as adjacent to an established residential neighborhood. To ensure the highest and best use of this property and compatibility with the surrounding neighborhood, your feedback is essential. The City is currently gathering public input from you, your neighbors, and other community members as a first step in potentially moving forward in negotiations with developers. Your comments will be reviewed and compiled by the Planning and Development Department, shared with the City Plan Commission and City Council, and will help to shape the vision for this Site. Thank you for taking the time to participate!

Please return your completed form to the utility drop box on Main Street West in front of City Hall (601 Main St W, Ashland, WI 54806) no later than December 1, 2020. You can also contact the Planning Director at mmcbride@coawi.org or 715-682-7041.

Residential Proposal

Please use the space below to share any thoughts and feedback about the proposed residential use and its compatibility with the surrounding area/neighborhood

Please use the space below to share any thoughts and feedback about the proposed residential site plan and building design
